

**CAPE TOWN
CARDIAC DISEASE
IN PREGNANCY
2021 SYMPOSIUM**

The 5th Annual Cardiac Disease in Pregnancy Symposium will take place on

27 & 28 September 2021

This unique symposium draws participants from a broad spectrum of disciplines – obstetricians, gynaecologists, cardiologists, internal medicine specialists, anaesthetists and basic scientists from South Africa, Africa and beyond.

The programme will cover sessions on congenital heart disease and comorbidities affecting pregnancy outcome. A dedicated session will include a number of clinical scenarios of cardiac disease in pregnancy.

Please find draft programme attached.

This two-day programme is CPD accredited.
